

Global Ovarian Cancer Patient Summit

Friday 28 October - Saturday 29 October 2016
Lisbon, Portugal

The Global Ovarian Cancer Patient Summit will take place in Lisbon, Portugal, October 28th-29th, 2016. This event is sponsored by AstraZeneca Global Medical Affairs team in collaboration with Gynecological Cancer InterGroup (GCIg) and International Gynecologic Cancer Society (IGCS).

SUMMIT OBJECTIVES

The purpose of the summit is to bring together leading patient experts, nurses, and physicians to reach common understanding about key challenges facing ovarian cancer patient-centred care. Through presentations and hands on brainstorming sessions, everyone participating in the Summit – patients, physicians, and nurses – will be asked to share their experience and views as a person living with ovarian cancer or caring for a person living with ovarian cancer and brainstorm ideas to help improve disease management and patient-centered care, support, education, and communication.

We are delighted to be welcoming patients, carers, physicians, nurses, patient advocates and AstraZeneca colleagues from Canada, the United Kingdom, Brazil, Portugal, France, Austria, Germany, Spain, Italy, Australia and the United States of America to the meeting.
