Three-Part Webinar Series: Breast Cancer in Latin America

Associate Professor: Dr. Víctor Manuel Vargas Hernández
Adjunct Professors: Dr. Guillermo Sidney Herbert Núñez
Dr. David Cantú de León
Coordinators: Dr. Antonio Posada Domínguez
Dr. Paula Anel Cabrera
Dr. José Hinojosa Gómez

This three-part webinar will be conducted in Spanish with English translation during the live event. The event recording will only be available in Spanish.

Objective: For doctors interested in enhancing decision-making for the benefit of their patients, this course will provide an opportunity to learn about current and future trends in the diagnosis, treatment, and follow-up care for patients with breast cancer.

Course description: Learn about the latest innovations in the knowledge and characteristics of breast cancer, detection, prevention, comprehensive management, surgery options, and personalized medicine.

Justification: Breast cancer is the most prevalent cancer among women in Latin America (and many parts of the world) and mainly affects patients of reproductive age. This considerably affects family life and society itself. Expert multidisciplinary teams are required to effectively manage breast disease and to improve survival and quality of life.

Facing the difficult journey through breast cancer does not end with diagnosis, surgery or radiation therapy - these treatments are only the beginning. This program will cover the most up-to-date clinical education regarding the management of breast disease and include information regarding the importance of all ongoing care, including survival programs. Expert multidisciplinary professors practicing in Latin America who are trained in breast surgery, medical oncology, pathology and oncological radiology will speak about innovations, challenges, and management controversies in breast cancer care throughout the entire patient journey.

Webinar Part 1: Diagnosis
Saturday, March 27, 2021 | 8:00 am – 12:00 pm CDT (Chicago)

Coordinator: Antonio Posada Domínguez, Mexico

8:00 – 8:25	Current situation in Latin America	Dr. Víctor Manuel Vargas Hernández (Mexico)
8:25 – 8:50	Diagnostic imaging in breast cancer	Dra. Eva Ruvalcaba Limón (Mexico)
8:50 – 9:15	Biopsy for diagnosis	Dr. Julio Lau (Guatemala)
9:15 – 9:40	Management of non-palpable tumors in the breast	Dra. Amelia Rodríguez Trejo (Mexico)
9:40 - 10:00	BREAK	
10:00 - 10:25	Oncofertility and breast cancer	Dra. Milagros Pérez Quintanilla (Mexico)
10:25 - 10:50	Radical surgical management in breast cancer	Dr. Santiago Scasso (Uruguay)
10:50 - 11:15	Surgery in metastatic breast cancer	Dra. Robin Shaw Dulin (Mexico)
11:15 - 11:40	Primary oncoplastic surgery in breast cancer	Dra. Patricia Villareal Cantu (Mexico)
11:40 - 12:00	Questions and answers	Dr. Guillermo Sidney Herbert Nuñez (Mexico)

Webinar Part 2: Surgery & Chemotherapy Treatment
Saturday, April 24, 2021 | 8:00 am – 12:00 pm CDT (Chicago)

Coordinator: Dra. Paula Anel Cabrera México

8:00 – 8:25	Oncoplastic surgery after neo-adjuvant treatment	Dra. Patricia Villareal Cantú (Mexico)
8:25 – 8:50	Immunotherapy and its impact on triple negative breast cancer	Dra. Ana Lluch (Spain)
8:50 – 9:15	When to use chemotherapy in hormone sensitive patients	Dra. Paula Anel Cabrera Galena (Mexico)
9:15 – 9:40	HER2 positive early breast cancer treatment	Dr. Marco Antonio García Hernández (Mexico)
9:40 - 10:00	BREAK	
10:00 - 10:25	Neo-adjuvant hormonal therapy in breast cancer	Dr. Leopoldo Abraham Lugo (Mexico)
10:25 - 10:50	Adjuvant hormonal therapy in breast cancer	Dr. Ivan Maldonado (Ecuador)
10:50 - 11:15	Biomarkers in breast cancer	Dra. Ma. Delia Pérez Montiel (Mexico)
11:15 - 11:40	Questions and answers	Dr. David Cantu de Leon (Mexico)

Webinar Part 3: Radiation Therapy Treatment
Saturday, May 29, 2021| 8:00 am – 12:00 pm CDT (Chicago)

Coordinator: Dr. José Hinojosa Gómez (Mexico)

8:00 – 8:20	Genetic signatures in breast cancer	Dr. Victor Manuel Hernández Aguilar (Mexico)
8:25– 8:40	Hereditary factors associated with breast cancer	Dra. Lenny Gallardo Alvarado (Mexico)
8:40 – 9:00	Hypofractionated schemes in breast cancer, is it always the first choice?	Dr. Carlos A. Pérez (USA)
9:00 – 9:20	Current status of radiation in breast cancer	Dr. Alberto Mena (Colombia)
9:20 – 9:40	Accelerated breast radiation therapy: to whom, when and how?	Dr. José Hinojosa Gómez (Mexico)
9:40 - 10:00	BREAK	
10:00 - 10:25	Adjuvant radiotherapy after neoadjuvant treatment and surgery, in locally advanced breast cancer	Dr. Gustavo Ferraris (Argentina)
10:25 - 10:50	Radiotherapy and oncoplastic surgery	Dr. Rolando Lora (Costa Rica)
10:50 - 11:30	Questions and answers	Dr. José Hinojosa Gómez (Mexico)
11:30 - 12:00	Evaluation and closing	Dr. Víctor Manuel Vargas Hernández (Mexico)
